Parent-Teacher Conferences
1:30pm-3:30pm

11.09.23

SCHOOL CLOSED

and
11.10.23

NJEA Convention

Walk or Bike to School!

LPS is proud to participate in the "Hunterdon County Safe Routes to School Program," which encourages and educates our students on walking to school safely. International Walk to School Month provides opportunities to reinforce the goals of the program - "Where it is safe, get kids walking and rolling; where it is not safe, make it safe."

Live too far from the school to walk? Consider dropping off your student at a closer location and walk the rest of the way! International Walk to School Day serves as the first of many walk to school days this year at Lambertville Public School.

"Through all of the work LPS does in Going Green, we often participate in such events as the Walking School Bus as well as other walking initiatives throughout the school year. We also work to ensure our students care about their environment by having Going Green Clubs in which students can recycle collected containers and turn them into works of art."

Wanda Quinones, Principal

Fisherman's Mark

LPS Student Council works closely with Fisherman's Mark and they featured one of our Socktober posters on their Instagram page!

Thank you for donating to Student Council's "Socktober" Sock Drive!

Fisherman's Mark (fishermansmark_) posted, "Happy Socktober! Lambertville Public School is once again hosting their annual fundraiser where they will be collecting socks for our program participants. We are so grateful to be the recipient of their creativity and kindness!"

MEET THE PRE-K TEACHERS

2ND YEAR TEACHING

2ND YEAR TEACHING AT SOUTH HUNTERDON

WHAT DO YOU ENJOY MOST ABOUT TEACHING?

As a teacher, I have the opportunity to see children grow and have a small part to play in that growth. I see my role as two-fold. First, I prepare the environment for learning. More than anything, I want students to take control of their learning. The more care I can take to make the physical classroom space work for them, and make learning materials accessible to them, the more they feel that autonomy. Further, the more I prepare behind the scenes when getting ready to introduce a concept, the more meaningful the few minutes I am the center of student's attention will be. Second, I am a tour guide through that environment. Once students want to know something, I step in and guide them through the process of exploration, then step back and let them experience the wonder of learning for themselves. A tour guide is not the star of the show, rather a means to the acquisition of new knowledge and skills, who then fades into the background.

CO-TEACHER: JESSICA PYLARINOS

WHAT IS THE MOST IMPORTANT THING YOU HOPE STUDENTS LEARN FROM YOU?

I hope that my students learn to love learning! I hope that by providing them with a supportive and engaging learning environment, they can all develop the confidence and curiosity to support them as life-long learners. With their own appreciation for learning, they can better recognize how the learning process looks different for all students. As a result, they will have more of their own internal motivation, and be able to support and encourage their classmates as well.

"The most significant thing a teacher can do for their students is show that they care."
